County Highway Superintendent Earl Coyne appeared before the Commission and discussed what Road Work had been done during the year 1954 and asked the Commission to think about and advise him as to what they propose for the 1955 Highway program. The Commission indicated they would give serious consideration to the 1955 Highway Program and advise Mr. Coyne as to what would be proposed as the 1955 program in the very near future. *H.W. program*

This being the day and time set for the hearing on the proposed division of Detroit Township notice of such hearing was duly read. *Hearing Division Detroit*

A large delegation from Detroit Township appeared Before the Commission. 10 from the North Detroit and 15 from South Detroit. Mr. Floyd Smith from North Detroit said it was the thought of the people asking for the Division that the division would be beneficial because the Road work would be more evenly divided and the assessments would be better. He also said the township officers would be working closer to the people of the township being a smaller unit. Bert Schuller who lives in the Southern half of Detroit Township represented those people who opposed the Division. He said they did not believe the division would be beneficial because there would be two sets of Township Officers governing an area previously governed by one group of Township Officers thereby increasing the cost of local Government. He also said he did not agree with the idea that there would be an improvement in assessment matters.

Moved by Com. Lindboe and seconded by Com. Thorpe that the following resolution be adopted.

Moved by Com. Buttz and seconded by Com. Lindboe that the County memorialize the State Legislature pertaining to H.B. 525 as follows:

To the Legislature of So. Dak.  
Assembled at Pierre, So. Dak.

The County Commissioners of Brown County duly assembled, desire to memorialize your august body as to House Bill 525 which has been passed by the House, raising the charge for care of mental patients at the Insane Hospital and School of Feeble Minded:

1. Brown County is in no financial position to increase taxes for this purpose being already pressed to the levy limit to care for the several hundred persons, now on relief through economic conditions, unemployment and ill health, in addition to deficiencies among hundreds of Old Age AD and ADC Persons. Now Being assisted by State Welfare & Indigents is not covered by Welfare allotments.

2. The larger cities are burdened with many families from nearby counties who having retired through Age & Infirmities find themselves unable to sustain themselves. They have been good citizens but through worry over their conditions and other causes become mental patients. These people move into larger centers, and thus, these Counties are carrying more than their fair share of this expense.

3. In addition the constitution of So. Dak., fixes certain institutions as State responsibility. See Article XIV, Paragraph I, such as the Penitentiary, Insane Hospital, Reform School, etc., and it would appear that these provisions have not been changed by amendment, hence the authors of our constitution must have felt and intended these institutions be maintained by State wide support, rather those certain communities.

Moved by Com. Smith and seconded by Com. Lindboe that the following Highway Labor policies and wage scales be adopted by Brown County, commencing July 1, 1955 thru December 31, 1955. Motion carried.

Brown County Highway Department Personnel classification and hourly or monthly pay schedule effective July 1, 1955 through December 31, 1955.

The Brown County Board of Commissioners, under authority granted by Chapter 75, Session Laws of South Dakota, Year 1949, has adopted an eight hour work day and a forty-eight work week, effective July 1, 1955. In case of unavoidable emergency more then forty-eight hours will be permitted during a calendar week but any increase will be considered compensatory time with allowance made for same before the close of the calendar month.

Vaction time and Sick Leave

Employees under 15 years of service shall receive 15 days vacation time with pay. Employees over 15 years of service shall receive 20 days vacation time with pay.

Employees under 15 years of service shall receive 14 days sick leave with pay. Employees over 15 years of service shall receive 14 days sick leave with pay.

All of the above vacation and sick leave time can be accumulated for a two year period.

Policy:

Changing from the 60 hour week to the 48 hour week with approximately the same

take-home pay will benefit all highway department employees. The reduction of 12 hours per week from the schedule will mean that all employees must give a full 8 hours of work each day. With the new hourly pay schedule in effect the Commissioners do not anticipate any trouble in replacing employees that are not performing their full duties and responsibilities for the highway department and Brown County. Sick leave time is considered protective insurance and will require a certificate from the doctor for 2 or more days off duty. Time in excess of 48 hours will have to be justified due to emergencies or other conditions. Compensatory time will be allowed for hours worked over the 48 hour schedule and should be used during each calendar month.

Personnel:

No change in work classification is recommended and all employees are assigned and performing the duties with pay corresponding to the attached schedule. Re-assignments of duties during seasonal changes will require re-classification of individual employees and wage schedule.

Responsibility:

It will be the responsibility of each employee to cooperate with the highway superintendent in every manner in order that this new work plan and policies will be compiled with.

Mr. Frank Yeoman and Mr. and Mrs. Warfield appeared before the Board and stated that due to controversy with the County on other matters, they had refused to list their personal property and further were asking that the valuation on their real estate be reduced. The matter was discussed and the subject of the controversy being apparently dissolved through such discussion, Mr. Yeoman and the Warfields consented to list their personal property and have it added as an omitted assessment, and withdrew their request for lower valuation on the real property.

Mr. Marshall of the Marshall Oil Company appeared before the Board. He stated that he was appealing from the local Board and asked that the value of his goods and merchandise be reduced on the grounds that certain of the merchandise as assessed to him was purchased after the assessment date. Mr. Marshall produced documentary evidence to substantiate his claim.

A study of the figures and books tend to substantiate his claim. Mr. Pence had refused to list his property this year and or sign the listing blank because he stated that he had been unable to get relief from the aforementioned matter. Mr. Pence agreed that his property should now be listed by the Board as omitted property. Mr. Pence was informed that his procedure to obtain relief on the matter was to file application for abatement or refund.

The matter of providing a grandstand for the Fairgrounds was discussed. The idea was advanced that the County could probably get a better price on a grandstand by advertising for bids this fall for the construction of such grandstand, in that the successful bidder would then have the winter months for the pre-fabrication of the structure.

An offer for the sale of a grandstand by the Turf Paradise Inc., of Phoenix, Arizona was read to the Commission.

The Commission then left on a trip to view a grandstand that is similar to the one the Commission have under consideration at the present time, and to consider it's suitability for use for Brown County 4-H Fair purposes.

ATTEST *Lois V. Lindman*

*Henry Reinhardt* CHAIRMAN  
Board of County Commissioners

OFFICIAL PROCEEDINGS OF THE BOARD  
OF COUNTY COMMISSIONERS

ABERDEEN, SOUTH DAKOTA

August 1, 1956

The Board of County Commissioners convened at 10:30 A.M. All Commissioners present except Com. Thorpe. Meeting was called to order by Chairman Reinhardt. The opening prayer was given by Rev. Edward W. Nergig of the Bethlehem Lutheran Church.

Com. Lindboe moves the following Resolution:

Insomuch as the correct figures on Valuations in Brown County were not completely corrected at the time we agreed upon a reduction for the City of Aberdeen, at which time we set this cut a 10% on Real Estate and structures within the city, and the figures as now compiled indicate that to bring the city in line with the rest of rural districts of the county, would have required considerable more reduction,

THEREFORE, Be it Resolved that the Brown County Board of Commissioners recommend to the State Board of Equalization that they give consideration to another reduction on Real Estate and structures of at least another 10% within the City of Aberdeen. This recommendation is made upon consideration of complete compilation of assessment values in Brown County.

Seconded by Com. Buttz. Upon roll call vote, Com. Lindboe-aye, Com. Buttz-aye, Com. Thorpe-absent, Com. Smith-naye, Com. Reinhardt-naye. Not having received a majority vote in favor of the above resolution, the Chairman declared the motion lost.

Moved by Com. Buttz and seconded by Com. Smith that the following bills be allowed. Motion carried.
