Earl Coyne, Highway Supt., having filed his annual report, met with the Board to discuss plans for the Highway for the coming year. The report was most comprehensive - to quote, in part-

Highway report filed discussed

" The Year 1945 was the fourth and last year of the wartime period of operation. The policy adopted at the beginning of the war - to maintain and protect the huge investment in our County roads and bridges - has been followed very closely.

As a result of this policy Brown County is coming out of the war era with equal or better service highways than we had four years ago.

Although very little new construction of roads has been undertaken, the projects that have been built, are of good design and substantially completed. Approximately forty new wood pile bridges have been built during this period. 280 miles of gravel surfacing and resurfacing has been constructed during the four year period which is an average of 70 miles per year. In 1945 84 1/2 miles of road was gravel surfaced and this represents the largest program for any one year of this type that the County has ever undertaken.

Betterment work consisting of backsloping, fence and ditch cleaning, installing of culvert drainage and repair of flood damaged roads and bridges has been accomplished."

Six Townships met with the County Board and a general discussion was held on the method of applying for Federal Aid on Secondary Highways. Maps and resolutions were given out with instructions on the proper procedure. Savo Twp. August Polo, Wm. Anderson; and Edwin Lippo; Lincoln Twp. M. L. Roundy, Bernard Schaunaman, Frank Gross and Louis Miller; Henry Twp. Raymond Wing, Albert Laurence, and Alget Johnson; Putney, Lester Rix, Elmer Wagner, and Harry Pharis; West Hanson, Oscar Stange, Arthur Dobberpuhl, and Herman Stange; Gem Twp. Ralph Schnorr, B. Hundstad, and Robert Thompson.

Frank Gross, Louis Miller and B. Schaunaman talked to the Board about the former County Road to Richmond Lake. LeRoy Samuelson has a building on this road at the edge of the lake. If the building is removed, a barrier would have to be erected - inasmuch as this road is now a township road. No action was taken.

Mrs. Cy Holgate, and Mrs. Harold Webb appeared before the Board on behalf of the Girl Scouts. They requested permission to hire County Equipment to remove fallen trees at the Scout Camp at Rondell. Action Deferred.

On motion by Commissioner Angerhofer and properly seconded the Board adjourned to meet in the afternoon at the Richmond Youth Camp.

County Officials from Day, Edmunds, Grant, Marshall, McPherson, Spink and Roberts in South Dakota, and Dickey County in North Dakota had been invited to a joint meeting and dinner.

The Brown County Officials and all guests were introduced by J.B. Forsting, Chairman. A general discussion followed on problems shared by all counties - prices paid for hauling gravel, wage scale of Highway employees, office help, vacations and sick leaves, and selling obsolete machinery.

Mr. Forsting told of the building of Richmond and its use by the Young peoples' organizations at the present time. Mr. A. M. Young, Ass't. Preconstruction Engineer of the State Highway Commission spoke on the regulations of Federal Aid Secondary Highways, emphasizing the fact that all applications must be approved by the County. Great Care should be exercised, as all highways participating must be maintained.

This is a 3 year program, with one year of grace. At the present time, the procedure is slow due to a shortage of engineers. However, it is well to file the applications. Federal participation may be requested for survey and plans, construction, engineering, grading, bridges, gravel surfacing, bituminous surfacing and concrete paving or any combination. The percentage of matching is approximately 56% by the Federal and 44% by the County.

Dinner was served to 105. After some community singing, Mrs. Irene Gerhard and her Kiddie Revue entertained the guests. Mr. Forsting, as master of ceremonies then called on different guests for a few words, and the responses were very entertaining, and some quite flattering. Mr. Howard B. Test, of the State Highway Commission spoke briefly on Secondary Road participation. Mr. Forsting introduced all guests, and the evening ended with dancing and cards. According to the guests, a good time was had by all.

DEC 4 1946

2:00 o'clock P.M. The hearing deferred on Tuesday on the James River Project was attended by Mayor Ed Gorder, City Manager Pierce, City Attorney Hugh Agor, K. E. Ristau, Engineer, Wm. Scott, Hecla, Elmer Thurow, Asst. States Att'y, Robert Campbell, Frederick, and several other interested persons.

The plan was discussed and K. E. Ristau again made it very clear that at this time all the district Engineer wanted to know was whether the majority of the people in Brown County favor this project.

Mayor Ed. Gorder, representing Aberdeen City urged the approval. Hugh Agor, City Attorney, assured the Board that their action would be merely the expression of an opinion, that such action would not bind the taxpayers to any obligation. Robert Campbell talked against the proposed plan stating the County could not stand the expense. Wm. Scott was in favor of the plan feeling that the benefits derived would more than offset the expense.

Elmer Thurow, States Att'y, stated that the Board would not be liable for any commitments, concurring with the City Att'y, that they were merely expressing an opinion.

J. B. Forsting called attention to the fact that under the present laws, drainage districts would have to be set up. Hugh Agor read a telegram from Commissioner Angerhofer in favor of the project.

After a lengthy, and at times, heated discussion, Commissioner Harholt moved the adoption of the resolution as presented by the Army Engineers:

RESOLUTION
ENDORING THE PLAN OF IMPROVEMENT FOR FLOOD CONTROL
ON THE JAMES RIVER AND ITS TRIBUTARIES
AND EXPRESSING AN OPINION
ON THE WILLINGNESS AND ABILITY OF LOCAL
AGENCIES TO CO-OPERATE IN THE CONSTRUCTION
OF THE PLANNED IMPROVEMENTS

Commissioner Harholt moves the following resolution and its adoption:

WHEREAS, The District Engineer, U.S. Engineer Office, Omaha, Nebr., has been directed to investigate and report on the advisability of undertaking measures for flood control on the James River and its tributaries at this time, and

WHEREAS, He has formulated a plan of improvement which has been discussed with the Governor of the State and coordinated with the plans of local and State agencies, and which plan has been explained to the Board of County Commissioners, Brown County, S. Dak., and consist of:

- a. The cleaning and repair of the drainage system of Crow Creek, and laterals thereof, in Brown and Marshall Counties, and also the construction of certain new works which will be necessary;
- b. The construction of a dam on Elm River, referred to as the Westport dam and Reservoir, for the flood control and other purposes;
- c. Improvement, by clearing, straightening, and other means, of the James River channel generally between Tacoma Park and Redfield, S. Dak.; and
- d. The construction of a dam and reservoir on the James River above Jamestown, N. Dak., now authorized by Public Law 534, 78th Congress, 2nd Session, and

WHEREAS, the Board of County Commissioners, Brown County, S. Dak., recognizes that the plan will confer a substantial benefit in Brown County, in the respect that flooding of lands will be alleviated, and drainage of valuable lands will be affected, and

WHEREAS, Federal legislation requires that in the case of local channel improvements or levee projects no money shall be expended on construction until States, political subdivision thereof, or other responsible local agencies have given assurances satisfactory to the Secretary of War that they will (a) provided without cost to the United States all lands, easements, and rights-of-way necessary for the construction of the project; (b) hold and save the United States free from damages due to the construction of the project; (c) maintain and operate the works after completion in accordance with regulations prescribed by the Secretary of War, and

WHEREAS, It is also necessary that the replacement, repair, or alteration of all highway bridges, highway relocations, and other similar works that would be necessary or desirable as a result of the construction be done at no expense to the United States, and

WHEREAS, The said District Engineer has requested the opinion of the Board of County Commissioners, Brown County, S. Dak., as to the desirability of the coordinated plan of improvement which he has formulated, and as to the willingness and ability of local interests to provide the necessary co-operation in the construction of the planned improvements, and

WHEREAS, The Board of County Commissioners is informed on the attitude of local interests to the extent that it feels competent to express opinions thereon:

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS, BROWN COUNTY, S. DAK., that it is the opinion of said Board that local interests favor and endorse the plan of improvement as presented to them, and should the plan be recommended by the Corps of Engineers and adopted by the Congress of the United States and prior to initiation of construction, will be willing and will be financially able to co-operate on an equitable basis with Marshall and Spink Counties to:

- a. Furnish without cost to the United States all lands, easements, and rights-of-way necessary for the improvement of the James River channel and for the improvement of drainage in the Crow Creek drainage area;
- b. Hold and save the United States free from damages due to the construction work for the improvement of the James River channel and for the improvement of drainage in the Crow Creek area;

- c. Maintain and operate the improved channel of the James River and the drainage works in the Crow Creek area in accordance with regulations prescribed by the Secretary of War;
- d. Replace, rebuild, or alter, without cost to the United States, all highway bridges affected by the James River channel improvements* in the Crow Creek drainage area, and construct such new bridges and effect such highway relocations as are locally determined to be necessary, except that the United States will underpin existing bridge piers where necessitated by channel deepening.

*and the drainage improvements

Commissioner Forsting asked that both sides of this question be fully discussed and considered before the vote is taken as in his opinion the acting on this resolution again is illegal and contrary to parliamentary law and procedure, as this question has been disposed of by a former recorded resolution. Chairman Hinrichs expressed himself as of a different opinion and at once asked for the vote. Resolution and roll call vote follows: *Improvement James River*

WHEREAS, The District Engineer, U. S. Engineer Office, Omaha, Nebr., has formulated a plan for flood control on the James River and its tributaries which consist of:

- c. Improvement, by clearing, straightening, and other means of the James River Channel generally between Tacoma Park and Redfield, S.Dak., and
- d. The construction of a dam and reservoir on the James River above Jamestown, N.D., now authorized by Public Law 534, 78th Congress, 2nd. session, and

WHEREAS, the Board of County Commissioners, Brown County, S.Dak., recognizes that the plan will confer a substantial benefit in Brown County, in that flooding of lands will be alleviated, and drainage of valuable lands will be effected, and

WHEREAS, Federal legislation requires that in case of local channel improvements or levee projects no money shall be expended on construction until States, political subdivision thereof, or other responsible local agencies have given assurances satisfactory to the Secretary of War that they will (a) provide without cost to the United States all lands, easements, and rights-of-way necessary for the construction of the project; (b) hold and save the United States free from damages due to the construction of the project; (c) maintain and operate the works after completion in accordance with regulations prescribed by the Secretary of War, and

WHEREAS, It is also necessary that the replacement, repair, or alteration of all highway bridges, highway relocations, and other similar works that would be necessary or desirable as a result of the construction be done at no expense to the United States, and

WHEREAS, The said District Engineer has requested the opinion of the Board of County Commissioners, Brown County, S. Dak., as to the desirability of the coordinated plan of improvement which he has formulated, and as to the willingness and ability of local interests to provide the necessary cooperation in the construction of the planned improvements, and

WHEREAS, the Board of County Commissioners is informed on the attitude of local interests to the extent that it feels competent to express opinions thereon:

RESOLUTION

Com. Forsting present the following resolution and moves its adoption:
WHEREAS, Brown County Judge, Thos. L. Arnold, did appoint Eugene D. Moe as County Probation Office by an order of the Court at a salary of \$200.00 per month, and
WHEREAS, the Board of County Commissioners did adopt a Budget in August 1947 for county expenditures for the year of 1948 and in which budget was \$2400.00 in the County salary fund for Brown County Probation Officer's salary, and in which budget and fund the Brown County Judge did concur in and agreed it was sufficient for the salary of the County Probation officer for the year 1948.
Now comes the County Judge before the County Board with an order of the Court demanding this salary be increased \$50.00 per month beginning July 1st, 1948, for the County Probation officer, and
WHEREAS, An opinion was requested from the States Attorney if this request to increase this salary was granted, it would cause the County Board to adopt a Supplemental Budget, would this Supplemental Budget be legal under the authority under the indispensable functions of Government?, and
WHEREAS, the opinion sets forth that if this department or office is an essential function of government, then it is within the Board's authority to supplement.
THEREFORE, Com. Forsting further moves that the increase of \$50.00 per month be denied as it is not in the 1948 County Budget and in the opinion of the Brown County Commissioners it does not necessarily come under the indispensable functions of Government.

Equalizing property and the Provisional Budget consumed most of the day.

A committee of four from Bath township consisting of Titus Wenz, J. W. Fritz, John Wheeting and Chet Luke came before the Board of Equalization and requested that a thorough investigation of assessments for taxation purposes be made in Aberdeen City as to comparisons with the assessment valuations in all other taxing districts in Brown County. They charged that it was unjust, unwarranted and wholly unnecessary to continue from year to year a practice which in every respect is contrary to the honest interpretation of the statutes.

The County Board of Equalization felt that inasmuch as the present City Commission is now making an honest effort to get Aberdeen City property appraised and assessed honestly for taxation purposes that an investigation at this time be postponed, but reserve the right to watch results.

N. M. Morgan, Warner, S. D., Manager of the Osborne-McMillan Elev. Co. of Warner appeared on reduction of assessments of Goods & Mdse, item #27, of said company.

Moved by Com. Forsting, seconded by Com. Keller that the assessment of item #27, Warner taxing district, Osborne-McMillan Elev. Co. be reduced 50%. All Com. voting aye, motion declared carried.

2:00 o'clock P.M. This was the day and hour decided on for selecting a Commissioner for the third district of Brown County to fill the vacancy left so by the death of Commissioner, J. M. Keller. The four remaining County Commissioners, the County Judge and the County Auditor constitute the vacancy filling board and in case of a tie vote the County Treasurer shall be called in to act as the tie breaking member of such board to fill such vacancy.

There were three applications for the position of County Commissioner of the third Commissioners District of Brown County, namely, Herman Brick, Fred Reber and E. R. Judy. On two different straw votes Herman Brick received three votes and E. R. Judy received three, therefore in order to vote the tie the County Treasurer, Otis H.
