

Create a

Cartoon

Character

Included in This Packet:

- Introduction Page
- Direction Page
- Face Shape Page
- Body Form Page
- Body Form Detail Page
- Colored Paper for Design

What You Will Need:

- Pencil
- Crayons, Colored Pencils
- Narrow Black Marker

This activity is all about designing a cartoon character!

Think of a character in your mind. What is your character's name? What kind of clothes will your character wear? What kind of hair do they have? How tall or short are they? How do they act? It's all up to you!!

Directions:

1) Start with the FACE SHAPES page. Draw in eyes, nose, mouth & hair. Try to make one face look happy, one look sad, one look scared, one look angry, one look shy and one look worried. Faces say a lot!

2) Look at the "MAN" - "WOMAN" page next. Make characters out of the top two faces. Then add clothes and faces to the bottom two characters. Now look at the next page where the characters are finished. Gather more ideas from them for your own character.

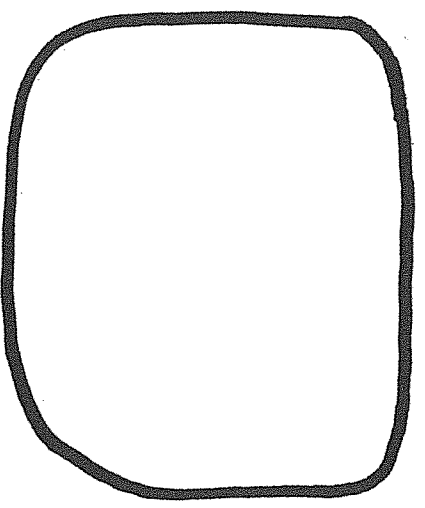

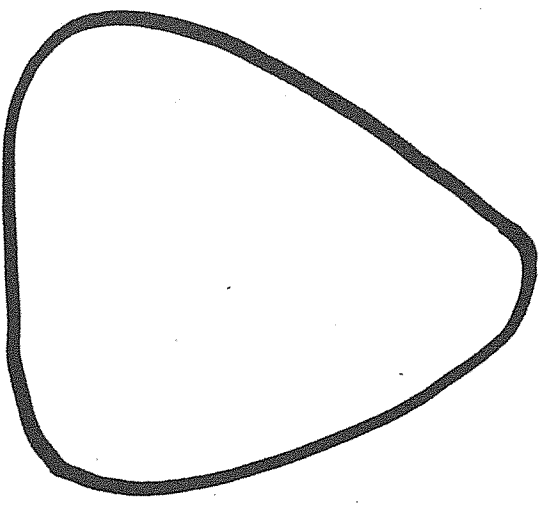

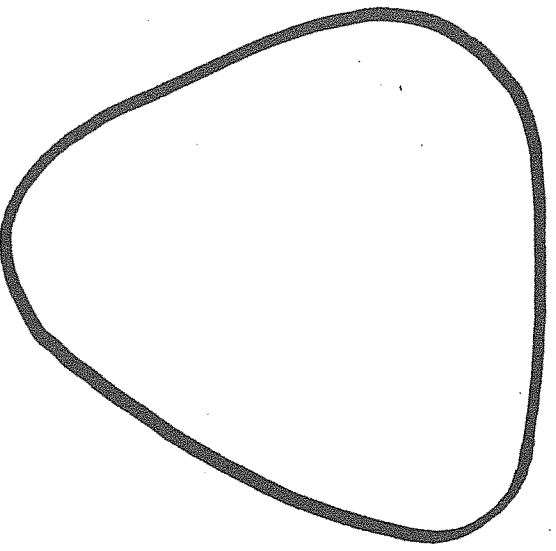

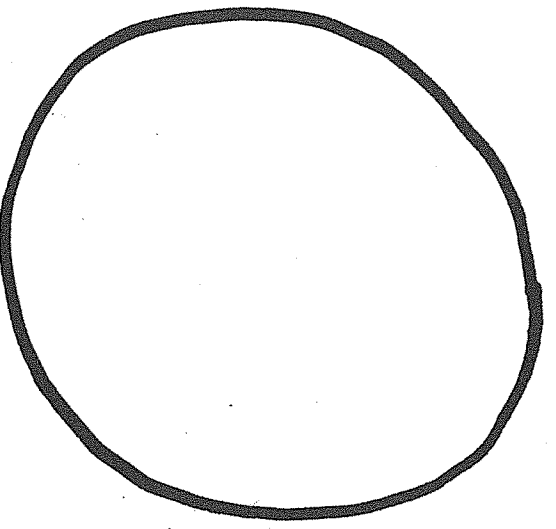

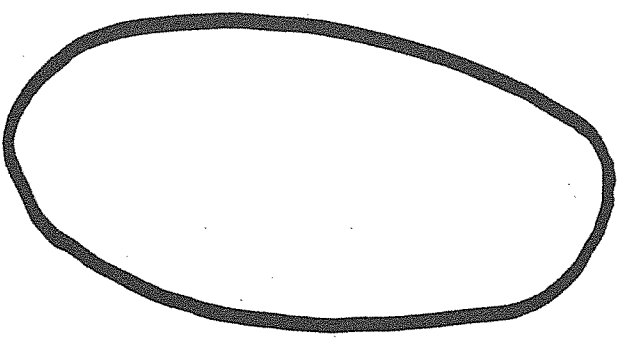

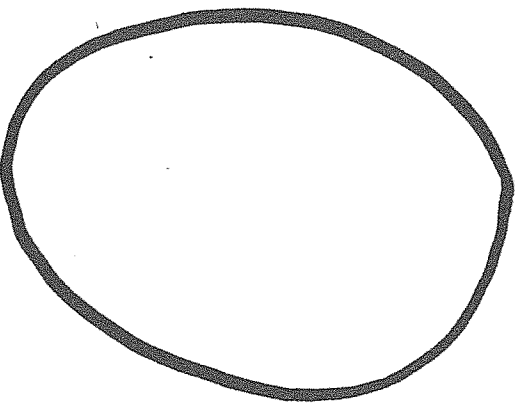

3) Now it's time to create your very own cartoon. Read the top of this page again. Draw your character in pencil (large) on the colored sheet provided. They can be doing something like playing ball or the piano - anything you want! Or they can just be standing still! They can have a background if you want! You can add letters for their name at the top!

4) When your cartoon is finished, outline it in narrow black marker and then add bright colors inside the outlines! Enjoy your cartoon creation!
